

Siemens CLINITEK Status + Urine Chemistry Analyser

SIEMENS

- An easy-to-use, automated analyser designed to deliver quick, accurate, reliable result
- Ensures consistent interpretation of results by removing the subjectivity of visual reading
- Printed record to help avoid transcription errors
- Ready for connectivity when you are - via simple upgrade kit
- Comprehensive urine test menu - including hCG pregnancy testing
- Checks integrity of each strip for exposure to humidity and prevents reporting if exposure is detected
- Identifies the type of strip automatically removing the need for operators to input strip configuration
- Minimal training required and audit compliant
- Clinitek can be used with a wide range of multistix testing including: Multistix 10SG, Multistix 8SG, Multistix GP, Clinitek Microalbumin and Clinitest hCG, see diagnostic strips below

5584	Clinitek Status + Urine Analyser	£775.00
5586	Clinitek Printer Paper, pk/5	£34.50
5592	Clinitest hCG, for Clinitek Status only, pk/25	£99.95
5590	Clinitek Microalbumin, pk/25	£65.15
5589	Clinitek Microalbumin 9, pk/25	£89.95

Roche Urisys 1100 Urine Strip Analyser

- Suitable for rapid screening of diseases of kidney and urogenital tract, carbohydrate metabolism, liver diseases and haemolytic disorders
- Used in conjunction with the robust and reliable Combur® Urine Test Strips, the Urisys 1100 is a fully automated urine test strip analyser
- Providing rapid, standardised results, it eliminates the limitations and potential errors associated with the manual reading of test strips. Furthermore, the Combur® Test Strips are highly resistant to ascorbic acid interference, ensuring accurate and sensitive results in the vitamin C-susceptible blood and glucose test fields
- Test procedure is fully automated
- Corrects for specific gravity in high alkaline samples and compensates for urine colour
- Urine test strip results are available in less than 70 seconds
- Stores up to 100 results in memory
- Positive results are flagged, making them immediately recognisable
- Results can be transferred to a PC or network computer or offline to a printer or printed from the built-in printer to attach to patient notes
- Dimensions: 9.5H x 15W x 29D cm
- Weight: 800g

7337	Urisys 1100 Analyser	£599.00
7338	Combur 10 Test UX Strips, pk/100	£28.30
7339	Combur 7 Test, for Visual & Urisys, pk/100	£18.00
7340	Combur 5 Strips for Urisys 1100, pk/100	£14.25
7341	Control Test M for Urisys Strips, pk/50	£26.80
7342	Urisys 1100 Replacement Paper Rolls	£17.00

Please note that standard Combur-Test Strips cannot be used with the Urisys 1100 with exception of the Combur 7 Test

Roche Combur-Test Urinalysis Strips

Maximum Accuracy, Hygiene & Value . . . Minimum Hassle & Expense

- Hygienic to handle and easy to use
- All test zones read in 60 seconds
- Resistant to Vitamin C interference
- Accurate, reliable results every time
- Excellent value for money

7343	Combur 3 Test Strips, pk/50	pH, Protein, Glucose	£6.50
7339	Combur 7 Test, for Visual & Urisys, pk/100	pH, Leucocytes, Nitrite, Protein, Glucose, Ketones, Blood	£18.00
7344	Combur 9 Test Strips, pk/50	pH, Leucocytes, Nitrite, Protein, Glucose, Ketones, Urobilinogen, Bilirubin, Blood	£14.75
7345	Combur 9 Test Strips, pk/100	pH, Leucocytes, Nitrite, Protein, Glucose, Ketones, Urobilinogen, Bilirubin, Blood	£22.75
7346	Combur 10 Test Strips, pk/100, visual only	Specific Gravity, pH, Leucocytes, Nitrite, Protein, Glucose, Ketones, Urobilinogen, Bilirubin, Blood	£28.30
7347	Diabur Test 5000 Strips, pk/50	Glucose	£3.90
7348	Keto Diabur Test 5000 Strips, pk/50	Ketones, Glucose	£7.75
7349	Micral Test, pk/30	Micro-Albuminuria	£51.50

Siemens Diagnostic Reagent Strips

- High quality reagent strips for urinalysis
- Can be used with the Siemens Clinitek Status urine analyser, see page 68

Multistix GP and 8 S.G.: Blood - Leucocytes - Nitrite - Specific Gravity - Glucose Protein - Ketones - pH

5587	Multistix GP, pk/25 strips	£10.25
9608	Multistix 8 S.G., pk/100 strips	£36.95

Uristix: Protein - Glucose

5588	Uristix, pk/50 strips	£10.25
------	-----------------------	--------

Multistix 10 S.G.: Blood - Leucocytes - Urobilinogen - Bilirubin - Nitrite - Specific Gravity - Glucose - Protein - Ketones - pH

9609	Multistix 10 S.G, pk/100 strips	£42.10
------	---------------------------------	--------

Microalbustix: Albumin & Creatinine Tests

5591	Microalbustix, pk/25 strips	£52.95
------	-----------------------------	--------

Albustix: Protein

5593	Albustix, pk/50 strips	£5.75
------	------------------------	-------

Urine Cups

Sterile Urine Cups

- 125ml graduated unbreakable cup iwth frosted field for writing
- Screw on Yellow Cap

3853	Sterile Urine Cups, pk/10	£3.25
------	---------------------------	-------

Non Sterile Urine Cups

- 60/125ml graduated unbreakable cup with frosted field for writing
- Snap-on lid with pull off tab or screw-on lid

3851	125ml Snap-on Red Cap, pk/10	£1.95
3852	125ml Screw-on Green Cap, pk/10	£1.95
3854	60ml Screw-on Red Cap, pk/10	£1.95

diagnostics

Roche Safe-T-Pro Plus® Blood Sampling Device

- Single use, self destruct safety lancet
- Ideal for home visit testing
- Choice of 3 depth settings 1.3, 1.8 and 2.3mm
- Minimise the risk of needle stick injury
- Prevents cross-contamination between patients
- Quick and easy to use

7330 Safe-T-Plus® Lancet, pk/200 £26.90

Unistik® 3

Comfort

Normal

Extra

- Single use safety lancet, reducing the risk of needlestick injuries
- When pressed against the sample site, a series of 8 raised dots on the platform stimulate the nerve endings. This sends a powerful message of comfort to the brain, masking the weaker pain stimulus from the lancet
- Available on Drug Tariff
- 3 different versions:

Unistik® 3 Comfort – Extra comfort and sufficient blood flow for frequent testing, paediatric and elderly, thin skin, patients
Gauge: 28G Depth: 1.8mm Blood Volume: 5ul – 30ul

Unistik® 3 Normal – Normal skin types and standard tests
Gauge: 23G Depth: 1.8mm Blood Volume: 30ul – 75ul

Unistik® Extra – Tougher skin or tests requiring larger samples
Gauge: 21G Depth: 2.0mm Blood Volume: 75ul – 125ul

9863	Unistik® 3 Comfort, pk/100	£10.90
9864	Unistik® 3 Normal, pk/100	£10.90
9865	Unistik® 3 Extra, pk/100	£10.90

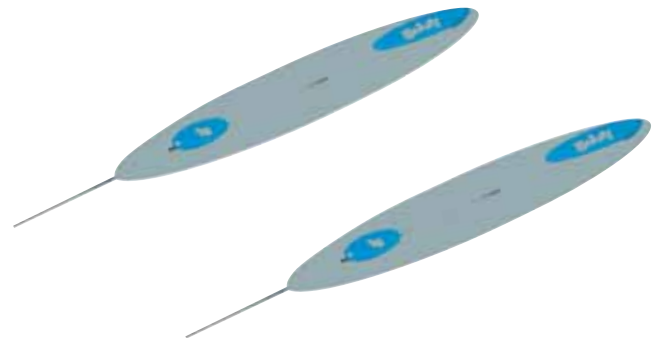

Neuropen

- For testing peripheral neuropathy in the diabetic foot
- Only dual function device available, offering both a 10g monofilament to assess protective touch/pressure sensation in large nerve fibres and calibrated Neurotip test to exert a 40g pressure to assess reduced sensation to sharpness/pain in small nerve fibres
- Supplied with one monofilament and one neurotip

2696	Neuropen	£15.30
2697	Neuropen replacement 10g monofilaments, pk/5	£12.70
2698	Neurotips, sterile, pk/100	£8.90

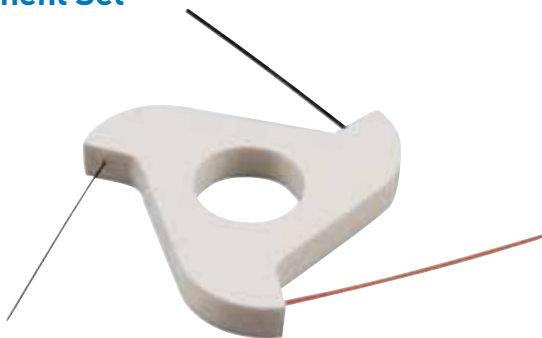

Retractable Monofilament

- Device for assessing neuropathy in the feet of patients with diabetes
- Most widely used is 10g device
- Non-sterile
- Clean between patients with alcohol wipe
- Supplied with instructions and cleaning advice
- Available in 1g, 10g and 75g, specify size when ordering

2692	Retractable Monofilament - specify size	£14.00
------	---	--------

Filament Set

- 3 filaments 1 each of index numbers 6.10 (75g), 5.07 (10g) 4.17 (1g)

1016	Filament Set	£69.00
------	--------------	--------

Pocket Filament

- Single 5.07 (10g) filament supplied in protective pocket case

1017	Pocket Filament	£19.50
------	-----------------	--------

Roche CoaguChek XS Plus Kit

State of the art technology with the accuracy, safety and convenience essential for effective patient self testing

- Meter provides the latest technology, quick and easy INR testing
- Very high levels of accuracy (ISI of 1.0) and precision (CV <5%)
- Heparin insensitivity
- Compact, hand held design and battery operation
- Top and side dosing options with strip
- Individual therapeutic range
- 500 result memory
- Large graphical display and easy to follow operation
- Full graphical touch screen for simple, fast handling
- Audit facility with patient and user identification
- Accurate results within one minute
- Download capabilities and integrated data management function
- Mains and battery power supply for in-clinic or home visit use
- Kit comprises: CoaguChek XS Plus base unit, battery pack and lancing device

7350	CoaguChek XS Plus Kit	£750.00
7351	CoaguChek XS Plus and XS Strips, pk/24	£74.50
7353	Control Solutions for XS Plus and XS	£19.00
7330	Safe-T-Plus® Lancet, pk/200	£26.90

Cardio Check™ PA Whole Blood Testing System

- Hand held, whole blood testing, blood glucose testing to lipid profile
- Results in a minute
- Single test for both cholesterol screening and diabetic monitoring
- Using the lipid panel test strip, one drop of blood calculates Total Cholesterol, HDL Cholesterol, Triglycerides, LDL-Cholesterol and TCHO/HDL ratio
- Supplied with batteries

7367	Cardio Check™ PA Blood Analyser	£479.00
7368	PTS Panels Glucose, 25 Tests	£12.00
7369	PTS Panels Cholesterol, 25 Tests	£62.00
7378	PTS Lipid Panel (CHO/HDL/LDL/TRIG) 15 Tests	£165.00
7371	PTS Panels HDL-Cholesterol, 25 Tests	£72.00
7370	PTS Panels Ketone, 25 Tests	£69.50
7372	PTS Panels Triglyceride, 25 Tests	£69.50
7373	PTS Panels Direct LDL, 25 Tests	£96.75
7374	PTS Panels CHO/GLU Duo, 25 Tests	£65.90
7375	PTS Panels CHO/HDL Duo, 25 Tests	£106.50
7376	PTS Panels CHO/HDL/GLU Triple, 15 Tests	£78.40
7377	PTS Panels HDL/TRIG/GLU (Metabolic Chemistry Panels) 15 Tests	£75.80
7379	Safetec Pipette 15µL, pk/25 Pipettes	£8.40
7380	Safetec Pipette 40µL, pk/16 Pipettes	£8.40
7381	PTS Multichemistry Control Solution	£48.50
7382	PTS HDL-Cholesterol Control Solution	£32.00
7383	Cardiochek Printer	£395.00
7384	CC Printer Communication Cable	£43.00
7385	CC Printer Label Roll, pk/5	£43.90

Roche Accutrend® Plus- Cholesterol & Glucose Testing System

- A direct replacement for the Accutrend GC
- Simple to use
- Cost efficient
- Rapid results
- Accredited testing
- Cholesterol Glucose testing
- Cholesterol- Quick, cost effective screening for cardiovascular risk
- Glucose- Risk assessment for diabetes
- Kit comprises: Accutrend Plus meter, Cholesterol test strips pk/25, Glucose test strips pk/50, Cholesterol Control Solution and Glucose Control Solution, Accu-Chek Safe-T-Pro Plus lancets pk/200 and Case

7332	Accutrend Plus-Cholesterol and Glucose Testing System	£199.00
7333	Accutrend Cholesterol Strips, pk/25	£49.50
7352	Accutrend Glucose Strips, pk/25	£9.90
7334	Accutrend Cholesterol Control Solution 1.5ml	£9.75
7336	Accutrend Glucose Control Solution 4ml, pk/2	£11.50
7330	Safe-T-Plus® Lancet, pk/200	£26.90

STAT-Site® M Haemoglobin Meter

- Test with children, infants and adults for conditions of anaemia, fluid retention, dehydration or recent haemorrhage
- Results in seconds with last result recall
- Self prompting graphics guides user through test procedure
- Uses whole blood sample, finger prick
- No user calibration required
- Battery operated, batteries supplied
- Test cards not supplied

7386	Stat-Site Meter Only	£219.00
7387	Stat-Site Hb Test Cards, pk/100	£110.00
7330	Safe-T-Pro® Plus Lancet, pk/200	£26.90

diagnostics

Roche Cobas h 232 Kit - Cardiac Reader

- Rapid, on-the-spot decision relating to DVT, heart failure and myocardial infarction
- Results available in 8–12 minutes
- Portable device which is suitable for use in the GP's surgery, one stop clinics or community hospitals
- Insert strip, apply sample, read result
- Intuitive touch-screen
- No maintenance
- Easy to clean
- On board quality control
- External quality control through the provision of EQA ampoules
- Results comparable to Roche laboratory methods 5–8
- Quality assurance via patient identification and QC operator lock-out

7322	Cobas h 232 Kit	£1065.00
7324	Cardiac D-Dimer tests for DVT, pk/10	£76.00
7323	Cardiac D-Dimer Control	£44.00
7325	Cardiac proBNP tests for Heart Failure, pk/10	£272.25
7326	Cardiac proBNP Control	£68.25
7327	Cardiac T Quant tests for Myocardial Infarction, pk/10	£109.75
7328	Cardiac Troponin-T Control	£28.50
7329	Cardiac Pipettes 150 UL, pk/ 20	£16.00
7330	Safe-T-Pro® Plus Lancet, pk/200	£26.90

Clinispin Horizon 642E Centrifuge

- Compact design single speed centrifuge
- Horizontal rotor design allows for the test tubes to be inserted at 45° angle, they are then gently rotated to a full horizontal position
- Electronic timer: 30 minutes, preset to 10 minutes
- Maximum acceleration time: 15 seconds
- Quiet operation and low vibration
- Automatic Lid Lock
- Supplied with 6-Place horizontal rotor, 6 x 10ml red and 6 x 5ml green tube carriers
- Dimensions: 22H x 28W x 32D cm

Siemens DCA Vantage Analyser

- Point-of-care diabetes system that gives the most proven, clinically relevant menu available, delivering enhanced HbA1C and Microalbumin testing results including A:C Ratio
- HbA1C and A:C Ratio testing in six and seven minutes
- Increases patient comfort by requiring a small blood sample – 1uL – for HbA1C
- Provides HbA1C patient trend graph
- Onboard printed results; eliminates transcription errors and saves time
- Stores up to 4000 records, easily downloaded and transferred to a PC
- Add sample to test cartridge, load and walk away
- No sample or reagent preparation
- Colour touch screen display for menu navigation, data entry and recall
- Minimal maintenance required with automatic reminders
- Optional barcode patient data entry to reduce transcription errors

9839	Siemens DCA Vantage Analyser	£3750.00
9840	Siemens DCA HBA1C Control Kit	£92.85
9841	Siemens DCA HBA1C Reagent Kit	£130.85
9842	Siemens DCA Microalbumin Control Kit	£89.50
9843	Siemens DCA Microalbumin Reagent Kit	£129.00
9844	Siemens DCA Bar Code Reader Kit	£287.50

9887	Clinispin Horizon Centrifuge	£629.00
------	------------------------------	---------

AlcoSense Elite Breathalyser

- Pocket sized alcohol breathalyser, designed to quickly and accurately tell the user their level of intoxication
- Indicates when the user is at or near the legal drink drive limit in the UK
- Uses a revolutionary in built air flow sensor meaning that the user can't blow too hard or too softly, will display Error on the screen
- Shows the level of intoxication in either mg/l, micro-grams per litre of blood or % BAC, percent of blood alcohol content
- Disposable blow mouthpieces are available for multi patient use
- Supplied with 3 x AAA batteries and 5 blow mouthpieces

9482	AlcoSense Elite Breathalyser	£58.50
9483	AlcoSense Blow Mouthpiece, pk/20	£4.50

Lion Alcometer® 500

Hand-held instrument with automatic breath sampling and digital display giving read-out of the subject's breath alcohol concentration

- Graphic display provides clear user instructions
- No warm-up time
- Provides results within 30 seconds
- Reading in mg/l BrAC
- Supplied with batteries, 250 x mouthpieces, 20 x nasal tubes, calibration standard and carry pouch
- Calibration Standard two sizes available:
Standard AC-M typically provides 50 gas samples, shelf life up to 6 months
Standard 2AL typically provides 150 gas samples, shelf life up to 3 years

7317	Alcolmeter® 500	£569.00
7318	Mouthpieces, pk/1000	£111.00
7319	Calibration Standard AC-M, 50 gas samples	£131.50
7320	Calibration Standard 2AL, 150 gas samples	£279.00
